"CONSENT OF THE BANGLADESH SECURITIES AND EXCHANGE COMMISSION HAS BEEN OBTAINED TO THE ISSUE/OFFER OF THESE SECURITIES UNDER THE SECURITIES AND EXCHANGE ORDINANCE, 1969, AND THE BANGLADESH SECURITIES AND EXCHANGE COMMISSION (QUALIFIED INVESTOR OFFER BY SMALL CAPITAL COMPANIES) RULES, 2018. IT MUST BE DISTINCTLY UNDERSTOOD THAT IN GIVING THIS CONSENT THE COMMISSION DOES NOT TAKE ANY RESPONSIBILITY FOR THE FINANCIAL SOUNDNESS OF THE ISSUER COMPANY, ANY OF ITS PROJECTS OR THE ISSUE PRICE OF ITS SECURITIES OR FOR THE CORRECTNESS OF ANY OF THE STATEMENTS MADE OR OPINION EXPRESSED WITH REGARD TO THEM. SUCH RESPONSIBILITY LIES WITH THE ISSUER, ITS DIRECTORS, CHIEF EXECUTIVE OFFICER, MANAGING DIRECTOR, CHIEF FINANCIAL OFFICER, COMPANY SECRETARY, ISSUE MANAGER, ISSUE MANAGER'S CHIEF EXECUTIVE OFFICER, UNDERWRITERS, AUDITOR(S), VALUER AND/OR CREDIT RATING COMPANY (IF ANY)."

(v) 'Risks in relation to the First Issue'

"This being the first issue of the issuer, there has been no formal market for the securities of the issuer. The face value of the securities is Tk. 10.00 (ten) and the issue price is Tk. 10.00, i.e., the face value. The issue price has been determined and justified at par value as stated under the paragraph on "Justification of Issue Price" should not be taken to be indicative of the market price of the securities after listing. No assurance can be given regarding an active or sustained trading of the securities or the price after listing."

(vi) 'General Risk'

"Investment in securities involves a degree of risk and investors should not invest any funds in this offer unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this offer. For taking an investment decision, investors must rely on their own examination of the issuer and the offer including the risks involved. Given the emerging nature of small capital companies, there may be a higher investment risk attached to the securities being offered. The securities to be traded on the Small Capital Platform may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be an active market for trading of such securities. The securities have not been recommended by the Bangladesh Securities and Exchange Commission (BSEC) nor does BSEC guarantee the accuracy or adequacy of this document. Specific attention of investors is invited to the statement of 'risk factors' given on page number(s) 99-107"

(vii) 'Oryza Agro Industries Ltd.'s Absolute Responsibility'

"The issuer, having made all reasonable inquiries, accepts responsibility for and confirms that this prospectus contains all material information with regard to the issuer and the issue, that the information contained in the prospectus are true, fair and correct in all material aspects and are not misleading in any respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which make this document as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect."

Bangladesh, with its rural and agro-based economy, has always been plagued with problems such as malnutrition, high levels of unemployment, and poverty. With the objective of alleviating the protein deficiency of the people and solving the unemployment problem to some extent, in the last 30 years, private investors have taken up steps to address these issues by setting up commercial livestock, fisheries, and poultry farms. The Feed Mill manufacturing industry has grown consequently to provide backward linkage support to the three industries, especially poultry farms which consume the biggest share of the feed industrially produced.

With a current turnover of BDT 10,000 Crore and a growth rate of 10% per year, the organized and unorganized feed production industry has a great prospect withstanding some challenges as well, such as: increasing price in raw materials, adulteration of raw materials, lack of quality control in unorganized sector, high import duty of vaccines. Due to high capital intensiveness, feed production is not coping up with the increasing demand and attaining economies of scale has been primary challenge for the industry players.

The major demand driver of the feed industry is the poultry industry and the feed milling industry works as the prime backward linkage industry for these industries. Based on internal estimates, current demand for poultry feed has been estimated to be 5.08 Million MT/year (based on CAGR 10% growth). As the market size and demand for feed are increasing, the demand for the major raw materials, such as: com, maize, Soy-bean, etc. is also expected to rise. However, since Bangladesh is not self-sufficient in producing these raw materials, it has to import major partions of them from neighboring country India; and rising price of Corn and Soy-bean, due to seasonal variation, creates continuous pressure on the market.

As the livestock and fisheries industry has been growing at a steady rate of 20% for the last two decades, the demand for feed has been growing accordingly. However, the supply side has not been able to keep up with the increasing demand. Yearly production of feeds per year is 27,95,040 MTV which is inadequate for meeting demand, which have to be imported directly from India and China.

The local production of feed and the raw materials necessary to produce the feed is still inadequate. For example, only 40% of the corn (one of the most vital raw material necessary to produce the feed) is produced locally, the rest (60%) are imported from abroad. Another vital raw material say-bean is also imported from abroad and the rest are sourced locally.

Among the major feed mill companies in Bangladesh, Aaro Industrial Trust, Rupsha Poultry Feeds Ltd., BRAC Poultry Feeds Ltd., Paragon Poultry Feeds Ltd., Surma Poultry Feeds Ltd., Kazi Poultry Feeds Ltd., Provita Feeds Ltd., Aftab Bohumuki Farms Ltd., Narish Poultry Feeds Ltd., Saudi-Bangla Fish Feed Ltd., New Hope Feed Ltd., Aman Feeds Ltd. Master Feed Ltd. National Feed Ltd. Oryza Agro Industries Ltd. are Metted major players. In a capital-intensive industry such as this, small local players are facing a high entry barrier because achieving economies of scale is very difficult.

Oryza Agro Industries Lio Company Secretary Bayazied Hossan The growth opportunities for the feed market are immense. Feed market works as the backward linkage of the poultry, livestock, and fisheries industries. According to DLS (Department of Livestock services), the average growth rate for the poultry industry has been 3.62% over the last ten years, whereas the combined growth rate for the three industries is 3.49%, and it is forecasted to grow at this steady rate in foreseeable future, which leads to the understanding that the market for the feed industry will continue to grow as well. The major portion of the increasing demand will have to be met by mechanized feed millers whereas the home-mix producers will have to take care of the rest. Ban on importing livestock from India might have a positive impact on demand for feed as domestic cattle farms will have to be built to offset its effect.

(i) The summary of the industry and business environment of the issuer. The summary shall not be one-sided or biased to highlight the issuer or the issue;

#### Summary of the industry:

Bangladesh, with its rural and agro-based economy, has always been plaqued with problems such as malnutrition, high levels of unemployment, and poverty. With the objective of alleviating the protein deficiency of the people and solving the unemployment problem to some extent, in the last 30 years, private investors have taken up steps to address these issues by setting up commercial livestock, fisheries, and poultry farms. The Feed Mill manufacturing industry has grown consequently to provide backward linkage support to the three industries, especially poultry farms which consume the biggest share of the feed industrially produced.

With a current turnover of BDT 10,000 Crore and a growth rate of 10% per year, the organized and unorganized feed production industry has a great prospect withstanding some challenges as well, such as: increasing price in raw materials, adulteration of raw materials, lack of quality control in unorganized sector, high import duty of vaccines. Due to high capital intensiveness, feed production is not coping up with the increasing demand and attaining economies of scale has been primary challenge for the industry players.

The major demand driver of the feed industry is the poultry industry and the feed milling industry works as the prime backward linkage industry for these industries. Based on internal estimates, current demand for poultry feed has been estimated to be 5.08 Million MT/year (based on CAGR 10% growth). As the market size and demand for feed are increasing, the demand for the major raw materials, such as: com, maize, Soy-bean, etc. is also expected to rise. However, since Bangladesh is not self-sufficient in producing these raw materials, it has to import major portions of them from neighboring country India; and rising price of Com and Soy-bean, due to seasonal variation, creates confinuous pressure on the market.

As the livestock and fisheries industry has been growing at a steady rate of 20%™ for the last two decades, the demand for feed has been growing accordingly. However, the supply side has not been able to keep up with the increasing demand. Yearly production of feeds per year is 27,95,040 MTV which is inadequate for meeting demand, which have to be imported directly from India and China.

The local production of feed and the raw materials necessary to produce the feed is still inadequate. For example, only 40% of the com (one of the most vital raw material necessary to produce the feed) is produced locally, the rest (60%) are imported from abroad. Another vital raw material soy-bean is also imported from abroad and the rest are sourced locally.

Among the major feed mill companies in Bangladesh, Agro Industrial Trust, Rupsha Poultry Feeds Ltd., BRAC Paultry Feeds Ltd., Paragon Poultry Feeds Ltd., Surma Paultry Deputy Director Narish Poultry Feeds Ltd., Saudi-Bangla Fish Feed Ltd., New Hope Feed Ltd., Aman Feeds Ltd., Master Feed Ltd. National Feed Ltd. On New Hope Feed Ltd., Aman major players. In a capital-intensive industry such as this, small local players are facing a high entry barrier because achieving economies of scale is very difficult.

> The growth opportunities for the feed market are immense. Feed market works as the backward linkage of the poultry, livestock, and fisheries industries. According to DLS

(Department of Livestock services), the average growth rate for the poultry industry has been 3.62% over the last ten years, whereas the combined growth rate for the three inclustries is 3.49%, and it is forecasted to grow at this steady rate in foreseeable future, which leads to the understanding that the market for the feed industry will continue to grow as well. The major portion of the increasing demand will have to be met by mechanized feed millers whereas the home-mix producers will have to take care of the rest. Ban on importing livestock from India might have a positive impact on demand for feed as domestic cattle farms will have to be built to offset its effect.

India	16
Srilanka	12
Bangladesh	4.5

As per the standard of World Health Organization (WHO), a matured person should intake 22 Kg of protein per year; whereas average intake of protein per person per year is 4.5 Kg in Bangladesh. A study shows that 6% GDP growth leads to 11% growth in poultry industry. Since there is a huge gap between standard intake and actual intake of protein, it is expected that the industry will grow very tast in tuture.

Besides these assets, we have also found other assets like Electrical Equipment & Installation, Lab Equipment, Furniture & Fixture, Office Equipment, Vehicles, Software.

It is also mentionable here that during our visit, we also checked Inventory register and roster (Workers' duty register) and found satisfactory. We also noticed that all machineries of OAIL are in good condition and running well.

The signboard of the Company is well displayed at the Dhaka Liaison office and registered office & factory premises and there is no other office/factory within the said factory premises.

It is observed in our visit to Oryza Agro Industries Ltd. that there is well displayed signboard in the entrance of the premises. We found that the operation of the Company is going on. Employees and workers are busy in performing their duties. We found the machineries as described in statements. Land is well-demarcated by boundary wall and fence. The land is surrounded with road and inside the area, there are factory building (Shed), warehouse, substation, generator room, boiler room, office & weight scale and meter room, 4 (four) dormitory buildings, small pond, office cum laboratory, kitchen & labor canteen, salt & wastage godown, load/unload area, truck parking and developed free land in the factory boundary,

#### Overview of business:

Bangladesh, with its rural and agro-based economy, has always been plagued with problems such as malnutrition, high levels of unemployment, and poverty. With the objective of alleviating the protein deficiency of the people and solving the unemployment problem to some extent, in the last 30 years, private investors have taken up steps to address these issues by setting up commercial livestock, fisheries, and poultry farms. The Feed Mill manufacturing industry has grown consequently to provide backward linkage support to the three industries, especially poultry farms which consume the biggest share of the feed industrially produced.

With a current turnover of BDT 10,000 Crore and a growth rate of 10% per year, the organized and unorganized feed production industry has a great prospect withstanding some challenges as well, such as: increasing price in raw materials, adulteration of raw materials, lack of quality control in unorganized sector, high import duty of vaccines. Due to high capital intensiveness, feed production is not caping up with the increasing demand and attaining economies of scale has been primary challenge for the industry players.

The major demand driver of the feed industry is the poultry industry and the feed milling industry works as the prime backward linkage industry for these industries, Based on internal estimates, current demand for poultry feed has been estimated to be 5.08 Million MT/year (based on CAGR 10% growth). As the market size and demand for feed are increasing, the demand for the major raw materials, such as: corn, maize, Soy-bean, etc. is also expected to rise. However, since Bangladesh is not self-sufficient in producing these raw materials, it has to import major portions of them from neighboring country India; and rising price of Corn and Soy-bean, due to seasonal variation, creates continuous pressure on the market.

As the livestock and fisheries industry has been growing at a steady rate of 20% for the last two decades, the demand for feed has been growing accordingly. However, the supply side has not been able to keep up with the increasing demand. Yearly production of feeds per year is 27,95,040 MTV which is inadequate for meeting demand, which have to be imported directly from India and China.

The local production of feed and the raw materials necessary to produce the feed is still inadequate. For example, only 40% of the corn (one of the most vital raw material necessary to produce the feed) is produced locally, the rest (60%) are imported from abroad. Another vital raw material soy-bean is also imported from abroad and the rest are sourced locally.

Among the major feed mill companies in Bangladesh, Agra Industrial Trust, Rupsha Poultry sit lebards Ltd., BRAC Poultry Feeds Ltd., Paragon Poultry Feeds Ltd., Surma Poultry Feeds Ltd., azi Poultry Feeds Ltd., Provita Feeds Ltd., Aftab Bohumuki Farms Ltd., Narish Poultry Feeds Deputy Director Combition, Saudi-Bangla Fish Feed Ltd., New Hope Feed Ltd., Aman Feeds Ltd., Master Feed Ltd.

Notice of Feed Ltd.

Notice of Feed Ltd. National Feed Ltd. Oryza Agro Industries Ltd. are the major players. In a capital-intensive industry such as this, small local players are facing a high entry barrier because achieving economies of scale is very difficult.

> The growth apportunities for the feed market are immense. Feed market works as the backward linkage of the poultry, livestock, and fisheries industries. According to DLS (Department of Livestock services), the average growth rate for the poultry industry has been 3.62% over the last ten years, whereas the combined growth rate for the three industries is 3.49%, and it is forecasted to grow at this steady rate in foreseeable future, which leads to the understanding that the market for the feed industry will continue to

grow as well. The major portion of the increasing demand will have to be met by mechanized feed milliers whereas the home-mix producers will have to take care of the rest. Ban on importing livestock from India might have a positive impact on demand for feed as domestic cattle farms will have to be built to offset its effect.

- a) Credit Risk: This is the risk of default on a debt that may arise because of default by the borrower to pay the loan. In operating any business there is always credit risk lies in the business. As there is always lending and borrowing between parties in the form of money and goods.
  - Management Perception: Credit Risk mainly lies with Financial Institutions, Since Oryza Agro Industries Limited is involved in manufacturing and marketing fish feed and poultry feed, there is no such credit risk. However, regarding credit sales, the Company tries to ensure working capital management so that operating cycle can be managed, in feed industry, we sell the feed to dealer on credit and dealer sells the feed to farmers. Hence, there is a credit period of 4 to 5 months, It is mentionable here that our average accounts receivable day is 124-day in the year 2018-19 whereas average accounts receivable day of Aman Feed Ltd. is 140-day in 2018-19. and average accounts receivable day of National Feed is 318-day in 2018-19.
- b) Liquidity Risk: The risk that a company may be unable to meet short term financial demands. This usually occurs due to the inability to convert its current assets to cash without a loss of capital or income. Liquidity is a common phenomenon of the business.

Management Perception: Finance is an arts and science of managing fund so that it can manage working capital in efficient way. Oryza Agro Industries Limited is also doing its level best to manage working capital management in efficient way to Mohambiad Asif Iqba maintain liquidity risk. Management is dealing with accounts payable, inventory and Deputy Director accounts receivable efficiently. As a new company into the business, there is some Banagisters Securities and Extraories Commission hard time to deal with liquidity. In order to deal with liquidity crisis, there is need to proper utilization of short-term and long-term finance. In this regard, recently, our government has been trying to encourage for long-term finance from capital market and short-term finance from banks so that it will help to avoid mismatch of long-term capital investment by short-term finance. In this regard, we would like to finance our long-term capital investment from capital market. As far as working capital is concerned, we would like to approach to Banks to meet the required working capital to deal with the liquidity risk, In this regard, we have a CC loan from Sonali Bank Limited (Local Office, Motineel). The sanction amount of the CC loan is Tk. 9.50 Crore.

> Risk associated with the issuer's interest in subsidiaries, joint ventures and associates: If the subsidiaries make loss, it affects parent company's balance sheet. In case of associate, there is chance of decline value of investment in associate company. As for joint venture, a joint venture (JV) is a business arrangement in which two or more parties agree to pool their resources for the purpose of accomplishing a specific task. This task can be a new project or any other business activity. In a joint venture (JV), each of the participants is responsible for profits, losses and costs associated with it.

Management Perception: Oryza Agro Industries Limited has no subsidiary, associate and joint venture.

a) Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer: There is risk involved in having limited number of customer and losing of that particular customer has negative impact on company's sales and eash flow as well.

Management Perception: The Management is always keen to find out new buyers which boost up the sales. The company generates revenues from selling fish feed and poultry feed through its dealers. Hence, the company is not dependent on any particular or limited number of customers to operate the business.

Management Perception: In business, having many suppliers of raw materials helps to get competitive advantage of cheaper price of raw materials. Because, having many suppliers help to bargain with suppliers over price. In addition, having many supplier helps to maintain doing business efficiently. As we hold the views, we are not dependent on a single or few suppliers. We have many suppliers from different countries that we have also mentioned in the prospectus.

f) More than 20% revenue of the issuer comes from sister concern or associate or subsidiary: Having 20% revenue generation from sister concern or associate or subsidiary makes issuer dependent on others companies. Hence, there is dependency risk.

Management Perception: We do not have any sister concerns and associate or subsidiary.

g) Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during last five years, if any: Negative earning and negative operating cash flow is risk the going concern risk for the entity.

Management Perception: We have been operating our business efficiently. We do not have any negative earning except negative cash flow from operation in the year ended 30th June 2015. This is because at the growth stage cash generalian from operation could be negative.

h) Loss making associate/subsidiary/group companies of the issuer: When associate/ subsidiary/group companies of the issuer are loss making, it affects the issuer and there is negative impact on cash flow of issuer and Balance Sheet as well.

Management Perception: We do not have any associate, subsidiary or group of companies.

apal Financial weakness and poor performance of the issuer or any of its subsidiary or associates: Financial weakness and poor performance of the issuer have negative Deputy Western Company and Deputy Western Company on the company. As a result if will be tough to pay loan interest, debt service and dividend. Future growth will be become 1 9 AUG 2021 and dividend. Future growth will be hampered.

Management Perception: Sales is one of the key indicators of success of a business if there is good margin of profit. Oryza Agro Industries Limited has been generating sales growth efficiently.

Decline in value of any investment: If investment value decline, it will reduce the profit and assets as well.

Management Perception: Oryza Agro Industries Limited does not have any investment.

k) Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned: There is obsolescence risk relating to plant and machinery. If the machinery is purchased in second hand or reconditioned, there high risk of repair and maintenance which has impact on profitability of the company.

Management Perception: The machineries that are used for Cryza Agro Industries Limited, are new machineries.

Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recall: It is loan given and taken from related party and directors as well. It company gives such loan without interest to related party, there is interest burden for the company if the money was taken as loan. On the other hand, if such loans are taken from directors, it will have an impact on the cash flow to pay off the loan to the Directors.

Management Perception: There is no as such loan given to related party or loan taken from directors.

m) Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors: In these cases there is high chance of compromise among the related companies because of conflict of Interest.

Management Perception: There is no potential conflict of Interest as the company does not have any venture which is in the same line of activity.

Related party transactions entered into by the company those may adversely affect competitive edge: Related party transaction of the issuer creates conflict of interest sif labatich reduces the competitive advantage of the issuer.

So, any restrictive covenants, if it goes against potential investors, will make investors in jeopardy.

Management Perception: There are no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of Banks in respect of loan or credit limit and other banking facilities.

p) Business operations may be adversely affected by strikes, work stoppages or increase in wage demands by employees: In such case, company's business operation will be hampered.

Management Perception: Different kind of strikes are not new in Bangladesh for long time and our business industries are used to dealing with this phenomenon. In relation to wages, we provide competitive wages among the competitors of us.

a) Seasonality of the business of the issuer: It is the risk involving that company is not doing business round the year.

Management Perception: Business dynamics change at faster rate over time, so are demand and supply. As per report by the United States Department of Agriculture (USDA), the paultry sector in Bangladesh is gearing up for export in 5-year time, particularly eggs and poultry meat to the Middle East, a big market for halal meat.

In this backdrop and overall increasing local demand for eggs and poultry meat plus fish in Bangladesh for last five years, we would like inform you that demand for feed is not seasonal. As far as demand is concerned, for any business, there is fluctuation of demand and demand varies over months in a year. In winter season, there is a bit low demand for only poultry feed, which is negligible. Moreover, it is mentionable here that Aman Feed and National Feed have not been producing floating fish feed whereas Oryza Agro has been producing floating fish feed that supports demand for feed round the year.

r) Expiry of any revenue generating contract that may adversely affect the business: This is the risk of losing customers affecting future sales.

Management Perception: The Company does not have any revenue generating contract that may adversely affect the business.

Excessive dependence on debt financing which may adversely affect the cash flow: Excessive dependence on debt causes huge interest burden of the company and high risk of insolvency that may result in bankruptcy.

Management Perception: Company is not dependence on any excessive debt financing and total liabilities is around 20% of the total assets.

Excessive dependence on any key management personnel absence of whom may have deverse effect on the issuer's business performance: Excessive dependence on management affects the business if the management is changed in future, which will create vacuum. Besides, if the key management personnel are of bad intention, labalexcessive dependence will also affect the business.

x) Ability to pay any dividends in future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure: Dividend payment is highly dependent on company's ability to generate profit. If company cannot earn good amount of profit from operation, it is unlikely to pay dividend.

Management Perception: The Company has been earning profit and a profitable entity. We are in belief that we will be able to pay dividend from our profit.

y) History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors: If there is any non-operation of the company, it creates negative impression. Apart from this, short operation history indicates campany is gathering knowledge and expertise to be competitive in the market.

Management Perception: The Company is in feed business for a few years. There was no non-operation history of the company. The company has employed experienced people to run the business under good leadership in the board.

Oryza Agro Industries Ltd Company Secretary Bayazied Hossain Management Perception: There is no incident of failure in holding AGM or declaring dividend or payment of interest by the issuers.

dd) Registered office or factory building or place of operation is not owned by the issuer: Factory building should be owned by the company. Otherwise, there is risk of hike in

Management Perception: Company's Dhaka liaison office is rented while registered

Management Perception: There is no such issue relating to lack of existing regulatory

factory rent in the years to come and threat of shifting the factory as well.

gg/Issuances of securities at lower than the QIO offer price within one year: The management ultimate goal is to maximize the wealth of the company, If share price goes up, it maximizes wealth of the company. On the other hand, if share price goes down, it minimizes the wealth of the company.

Management Perception: Oryza Agra Industries Limited has not issued securities at lower than QIO offer price within one year.

not following the law to renew its all licenses.

a) Interest Rate Risks: When interest rate fluctuates, it causes interest risk. Companies who have debt financing are exposed to this risk highly.

Management Perception: In our country, right now, government is in effort to reduce interest rate in single digit so that business can thrive. As for Cryza Agro Industries Limited, the Company has loan in small scale. Hence, the company is not vulnerable to Interest rate risk.

b) Exchange Rate Risks: Foreign exchange risk or currency risk is a financial risk that exists when a financial transaction is denominated in a currency other than that of the base currency of the company. This risk arises when investment's value changed due to the changes in currency exchange rates.

Management Perception: The Company has been purchasing its raw materials from local suppliers. These raw materials are imported by local suppliers who are directly exposed to foreign exchange risk. As the company is not directly exposed to foreign exchange risk, this risk has not been included. If foreign exchange risk makes the raw materials pricy, it would impact all the companies and eventually selling price of the

It is to be noted that price can be increased because of other factors such as interest rate, wage hike, operating inefficiency, which are also be managed by the company.

c) Industry Risks: Industry risk is related with the factors affecting the company such as Raw Material, labor, demand of the product, government policy to the sector, competitor's rivalry.

Management Perception: Oryza Agro Industries Limited is aware of the above fact. Industry risk is inherent in any kind of business. At the moment industry is favoring for operating business.

d) Economic and Political risks: This risk can be described as the likelihood that an investment will be affected by macroeconomic conditions such as government regulation, exchange rales, or political stability. In other words, while financing a project, the risk that the output of the project will not produce adequate revenues for covering operating costs and repaying the debt obligations. In a nutshell, economic risk refers to the risk that a venture will be economically unsustainable due to various reasons.

Management Perception: Bangladesh economy is enjoying 7% plus economic growth and expected economic growth by the government is over 8%. As a result, huge development work is underway by the government. Hence, huge expensive infrastructure has been under construction that will create employment and per capita income is going up as well. As economy is expanding, so is our business viability and profitability.

**Political risks:** Bangladesh experienced with political unrest for over the years. Political instability nampers the smooth operation of business.

Management Perception: Nowadays calm and serene atmosphere is prevailing in our country. There is no political chaos as was at the beginning of 2014. Government is industry friendly and trying to its level best to boost up economic activities in the country.

e) Market and Technology-related Risks;

Market risks: Cryza Agro Industries Limited is operating in a tree market element Asit Iqual regime. The company might have to face stiff competition from its competitors and being competitions.

Management perception: Market risk is dealt with efficiently by the experienced management.

1 9 AUG 2021

**Technology-related risks:** Technology always plays a vital role for each and every type of business. Innovation of new and cost effective technology can increase productivity and reduce costs of production. On the other hand, obsolete technology may have a negative impact on the business.

Management perception: Because of nature of the business Oryza Agro Industries Limited applies the latest technology to deal with its aperation. If it is does not uses latest technology, it will not be able to cope with the competitors.

Management perception: The Company is enjoying good almosphere in operating our business. Government regulations are favorable for the company.

g) Potential or existing changes in global or national policies: Policies from government has a positive or negative impact on any company along with existing changes in globally.

Management perception: Nowadays global and national policies do not change without prior notice. For potential changes in policies, local and global leaders consider different issues including industries opinion. We are optimistic that if any policies change unpredictably, we can improvise with new policies without hampering our smooth operation.

h) Statutory clearances and approvals those are yet to be received by the Issuer: Statutory clearance and approval is imperative for any business to start off. There are many statutory clearances and approvals need from the regulatory authority in order to be monitored, controlled and guided.

Management Perception: Oryza Agro Industries Limited has been running its business for around five years. The company has collected all the statutory clearance to operate the business. Hence, there are no as such risks for the Company.

Competitive condition of the business: Oryza Agro Industries Limited is operating in a free market economy. The company has to face stiff competition from its competitors.

Management Perception: Oryza Agro Industries Limited has been in the market over labalthe years. The Company is doing well to be competitive with competitors. Hence, there is always check and balance existed among the rivalry companies.

Barray adean Securities and Euchanne Commission Complementary and supplementary products/services which may have an impact on business of the issuer: Complementary goods or services that are used in conjunction with another goods or services. Usually, the complementary goods have no value when consumed alone, but when combined with another good or service, it adds to the overall value of the offering. A product can be considered a complement when it shares a beneficial relationship with another product offering. Supplementary goods are two goods that are used together. For example, if we have a car, we also need petrol to run the car. Supplementary goods have a negative cross elasticity of demand. For instance, when price of petrol goes up, demand for petrol and cars goes down.

> Management Perception: The Company has not faced any challenges relating to supplementary and complementary products and Management are concerned with the issue. In future, if necessary, management may diversify the product to be competitive over the competitors.

along with the relevant assumptions, reasons for raising additional working capital substantiating the same with relevant facts and figures If one of the objects of the issue is utilization of the issue proceeds for working capital, basis of estimation of working capital requirement and also the reasons for financing short with long term investments and an Item-wise break-up of last three years working capital and next two years projection;

The basis of estimation for working capital is Percentage of Sales Method. The assumptions regarding working capital is that sales will be increasing over time. In line with increased sales, account receivables, inventory and overhead will increase. Orga Agro Industries Limited is a growing company. The company will require more working capital to support the smooth business operation,

amount of raw material, stock in process, stock in finished goods and receivable as well. As a result, the company needs to maintain a significant amount of working capital to run the business. In this regard, Management has decided to use QIO proceeds amounting to Tc. Oryza Agra Industries Limited does regular business and it is not a seasonal business. The company requires to maintain a significant 9.73 crore for working capital

# The assumptions for these projections are as follows:

Capacity utilization will be increased for increasing of demand.

Revenue will be increased for increasing of demand. Irade receivables will increase in line with sales.

nventory will increase in line with sales.

Llabilities for expenses will increase.

Independent Auditor's Report
To the Shareholders of
Oryza Agro Industries Limited
Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying Financial Statements of **Oryza Agro Industries Limited** (the Company), which comprise the Statement of Financial Position as at 31 December 2020, and Statement of Profit or Loss and other Comprehensive Income, Statement of Changes in Equity. Statement of Cash Flows for the period then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information disclosed in Note 1-37.

In our opinion, the accompanying financial statements presented fairly, in all material respects, the financial position of the company as at 31 December 2020, its financial performance and its cash flows for the period then ended in accordance with International Financial Reporting Standards (IFRSs), the Companies Act, 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations.

### Basis for Opinion

We conduct our audit in accordance with International Standards on Auditing (ISAs) of Additional Particles and responsibilities under those standards are further described in the Auditor's Responsibilities under those standards are further described in the Auditor's Responsibilities and the Audit of the Financial Statements section of our report. We are independent of the Countains to the Audit of the Financial Statements section of our report. We are independent of the Countains company in accordance with the International Ethics Standards Board for Accountains!

Code of Ethics for Professional Accountants (IESBA Code), Bangladesh Securities and Exchange Commission (BSEC) and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unqualified opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters were addressed in the context of our audit of the consolidated and separate financial statement as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Other information

The other information comprises all of the information in the annual report other than the financial statements and our auditor's report thereon. We have not been provided the director's report and other information contained within the annual report except the financial statements to the date of our auditor's report. We expect to obtain the remaining reports of the annual report after the date of our auditor's report. Management is responsible for the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether

Bayazied Hossain Company Secretary Oryza Agro Industries Ltd Our opinion on the financial statements does not cover other information and we do not express any form of assurance conclusion thereon.

# We have nothing to report on going concern

We are required to report if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of the financial statements. We have nothing to report in these respects.

# Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls:

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, the Companies Act, 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgments and maintain professional skepticism throughout the audit. We also:

Mohammad Asit lebal/hether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a suggestive section of the fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a suggestive section of the fraud of the fraud is for our apinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the averride of internal control.

 Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis
  of accounting and, based on the audit evidence obtained, whether a material
  uncertainty exists related to events or conditions that may cast significant doubt on
  the company's ability to continue as a going concern. If we conclude that a material
  uncertainty exists, we are required to draw attention in our auditor's report to the
  related disclosures in the financial statements or, if such disclosures are inadequate,
  to modify our opinion. Our conclusions are based on the audit evidence obtained up
  to the date of our auditor's report. However, future events or conditions may cause
  the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected outweighthe public interest benefits of such communication.

### Report on other Legal and Regulatory Requirements:

In accordance with the Companies Act, 1994, the Securities and Exchange Rule Nd Bangladesh Securities and Exchange Commission, we provide the report that:

- a) We have obtained all the information and explanations which to the best of our a NUG 2021 knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b) In our opinion, proper books of accounts, records and other statutory books as required by law have been kept by the Company so far as it appeared from our examinations of those books;
- c) The Statement of Financial Position, Statement of Profit or Loss and Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows of the Company together with the annexed notes dealt with by the report are in agreement with the books of account and returns.
