CHAPTER (I): EXECUTIVE SUMMARY

(a) About the industry:

Bangladesh is the second largest readymade garment (RMG) exporter country in the world. The primary textile sector (PTS) is producing yarn and fabric needed for readymade garment sector (RMG). PTS is the backbone of clothing industries because it provides the backward linkage for both the woven and knit sector. This sector provides the yarn towards the clothing industries where yarn is the primary raw material of these industries to produce fabric. Dyeing, an indispensable intermediary process of adding color to textile products like fibers, yarns, and fabrics to get glamorous ready garment. The products of the spinning sub-sector are cotton yarn, polyester, synthetic yarn, woolen yarn and blended yarn mixed of cotton and polyester of different counts. Yarns are being used by the weaving sub-sectors like specialized textiles, handlooms, and knitting and hosiery. We have a lot of opportunities to diversify our business in the textile sector. The time now is very much favourable to setting up new primary textile units in Bangladesh.
