AMAR STOCK

1. Reporting entity

Bata Shoe Company (Bangladesh) Limited (hereinafter referred to as ("Bata"/"the Company") is a public Company limited by shares. It was incorporated in Bangladesh in 1972 under the Companies Act 1913. The address of the registered office of the Company is Tongi, Gazipur, Bangladesh. The Company is one of the operating companies of worldwide Bata Shoe Organization (BSO). The shares in the Company are listed in both Dhaka Stock Exchange (DSE) and Chittagong Stock Exchange (CSE) and mostly held by Bafin (Nederland) B.V. The financial year of the Company covers one year from 1 January to 31 December.

The Company is mainly engaged in manufacturing and marketing of leather, rubber, plastic, canvas footwear, hosiery and accessories items. Manufacturing plants of the Company are situated at Tongi and Dhamrai.

2. Basis of accounting

The financial statements have been prepared in accordance with Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations.

The titles and format of these financial statements follow the requirements of BFRSs which are to some extent different from the requirements of the Companies Act 1994. However, such differences are not material and in the view of management BFRSs titles and format give better presentation to the shareholders.

3. Functional and presentational currency

These financial statements are presented in Bangladesh Taka (Taka/Tk) which is both functional and presentational currency of the Company. The amounts in these financial statements have been rounded off to the nearest Taka .

4. Use of judgments and estimates

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to estimates are recognised prospectively.

AMARSTOCK

A. Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following note:

B. Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the period ending 30 June 2018 is included in the following notes:

Note 5 Property, plant & equipment
Note 6 Deferred tax assets (liabilities)
Note 7 Inventories
Note 8 Accounts receivable
Note 13 Deferred liability
Note 18 Current tax liabilities

C. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. Management has the overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of BFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

• Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

• Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

• Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.
